

Executive Board Work Session #2
Breakout Group Discussion Questions

1. What additional factors should we include if we were approached to merge or acquire additional territory from another council?
2. If we only grow membership by 5% or less as discussed during our last work session, how will we utilize our excess camp capacity?
3. What additional external or environmental risks should we be aware of in relation to our camps or service center?

4. What are the primary needs a volunteer or parent need when visiting the Scout Service Center?

5. Under what circumstances would it make sense to move our Scout Service Center to a new location within our territory?
